

**miniscopic**™  
CUSTOM INVISIBLE HEARING PRODUCT

Think hearing aids should be

**HEARD**  
and not seen?

**miniscopic**<sup>™</sup>

**from america's premier  
hearing aid provider**

When it comes to wanting the world's smallest, most comfortable and best sounding hearing aids, people everywhere turn to NuEar, an American-owned and operated manufacturer of advanced hearing solutions.

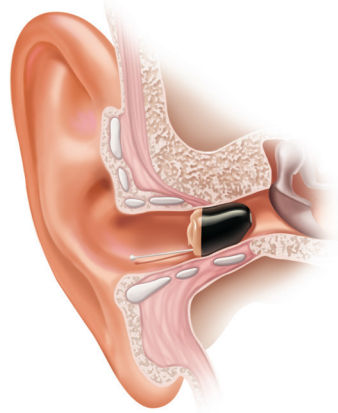

**Demanding people  
choose Miniscopic.**

NuEar Miniscopic are the first and most popular custom-fit Invisible-in-the-Canal (IIC) hearing aids ever made. They're custom fit to your unique ear canal for all-day comfort and rest deep inside your ear where no one can see them.

**Our best technology in an invisible style.**

Miniscopic come with NuEar's innovative features, including the industry's most proven feedback canceller, and a noise reduction and speech preservation system that's designed to help you hear clearly and easily, even in noisy environments like restaurants.

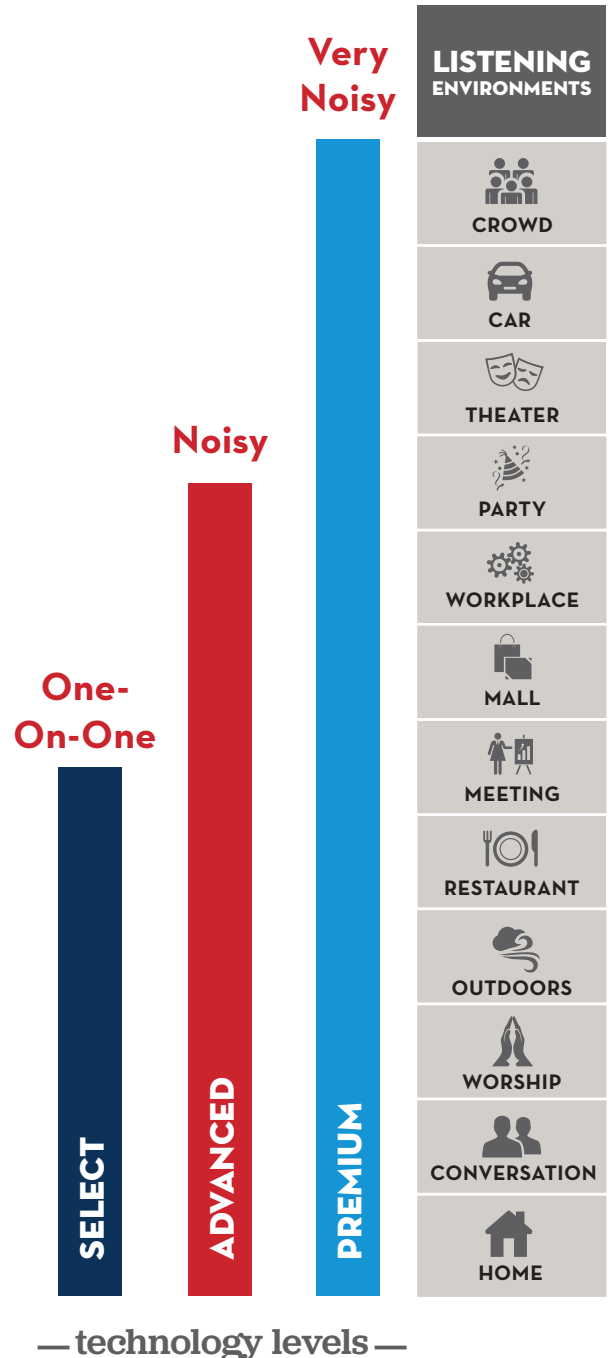

Miniscopic rests comfortably in the second bend of your ear canal where it's virtually undetectable to others.

# what's right for you?

Miniscope hearing aids are designed to accommodate and enhance a variety of different listening environments.

What you need will depend on how busy and active you are, and what types of environments you frequent.

small hearing aid.  
**BIG BENEFITS**

**YOU WANT**

**Hearing aids that no one knows you're wearing**

**A way to hear comfortably in noise**

**Help hearing higher frequency sounds**  
(like children's and women's voices)

**A personal and comfortable listening experience**

**Easy, hassle-free controls**

**No buzzing or whistling**

Miniscope are available in a variety of technology levels. Some features may vary.

**MINISCOPIC DELIVERS**

The world's first custom-fit Invisible-in-the-Canal hearing aids: fit deep in your ear canal where no one can see them

Vivid Speech<sup>2</sup>, which tackles the issue of hearing speech in noise

The only technology that replicates high-frequency speech cues into lower frequencies, where they're easier to hear

Sound compression technology designed to differentiate soft speech from loud, for a more enhanced and natural sound quality

With T<sup>2</sup> remote, you can adjust memory or volume using any touch-tone phone

Our Active Feedback Suppressor<sup>3</sup> is still the industry benchmark for performance

**Faceplate Color Guide**

\*Individual results may vary. Invisibility may vary based on your ear's anatomy.
